

# Clarity AI Sustainability Raw Data - Human Rights and Labor Relationship

Understand the organizations that have clear commitments to the wellbeing of their employees and communities where they operate

# Human rights and Labor Relationship

## Problem

Respect for human rights and fair labor practices are critical components of sustainable and responsible business practices. The impact of organizations on these factors can have significant implications for their bottom line and the communities in which they operate.

## Solution

Building upon a variety of metrics, from internal social factors such as the health and safety conditions of workers, to policies and scandals related to human and labor rights, this template will allow you evaluate the risk associated with labor and social-related malpractices of the organizations within your portfolio.

This approach promotes a more ethical and inclusive business environment that benefits both organizations and the communities they operate in.

### Standard delivery format

We help our clients choose from our vast inventory of data to solve specific problems. Clients can use the template as it is, or enrich it with data from our inventory to have a custom product. Our standard delivery method is a **monthly datafeed, in a long format CSV file** to our S3 aws hosted services.
